EzList Email List Management Service

Our professional Web–based email list management service enables you to easily build and manage email lists, create newsletters and other direct marketing emails, and track results.

No software, hardware or licenses to buy! Send all your emails at once! Take a look:

Easily integrate existing subscriber lists into EzList

- Import lists from applications like Act, Excel and Outlook
- Synchronize your lists with other databases
- Clean your list of duplicate email addresses
- Embed subscribe forms in your website
- Link to customizable subscribe pages

Store multiple lists with distinct settings

- Store an unlimited number of lists in your account
- Change outbound list names and email addresses for each list
- Customize separate subscribe pages and automated messages for each list
- Modify message footers with your own text, links and styles
